

Sprint Progress Report

Sprint Name: SP May 2nd

Sprint Duration: SP April 25th – SP May 2nd

Team Member: Christian Sheen

Date: 05/02/2024

Completed Work:

User Story/Task ID: OWS-9430

Story Point: 2

Description: NCIC-AZ FRACTIONAL ADDRESS w/ 1/2 (CAUSES SNU REJECTION)

Status: Prep for Test

Reason for Completion: This was a two-part solution that required some revision on the Foxtalk service and some updates to the NCIC. On the NCIC side we needed to adjust the regex to conditionally accept more than 7 string chars and the replacement of '/' with URI code '%2F'. There are issues with AZ agencies and rejections and then there needs to be testing done for the Foxtalk part.

User Story/Task ID: OWS-9310

Story Point: 2

Description: AZ - NCIC entry pulling old address

Status: In Progress

Reason for Completion: This issue will be resolved with the next version release (v.3.6.0) which will include the code from <http://software.watchsystems.com:8080/browse/OWS-8953>

Incomplete Work:

N/A

Overall Sprint Summary:

Total User Stories/Tasks Completed: 2

Total User Stories/Tasks Incomplete: 0

Sprint Review Comments: No issues aside from coming across a bit of redundancy due to version release.

Action Items for the Next Sprint:

- NCIC3 - VT: Victim information Erroneously Removed
- OW Phoenix: Enhance - Vehicle Model Year
